

REMARKS

This Amendment is submitted supplementary to the previous Amendment and in connection with the interview with the Examiner.

With the present Amendment applicant has amended the claims as was discussed during the conference. Also, a new independent claim 11 has been added, to define that each individual enclosure has an upper wall and a side wall formed so that the corresponding work station is completely confined inside the inner space formed by the upper wall and the side wall of the individual enclosure.

Reconsideration and allowance of the present application is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be carried out by Examiner's Amendment, and the case be passed to Issue. Alternatively, should the Examiner feel that a personal discussion might be helpful in advancing this case to allowance, he is invited to telephone the undersigned (at 631-243-3818).

Respectfully submitted,

  
Ilya Zelenetsky  
Agent for Applicant
